

Year 4 Homework Spring 2

Half term homework:

Enjoy completing at least two of the activities from the selection below. Bring in any work that you complete so we can add it to our topic display. Have lots of fun learning more about mountains and hills in our world – we can't wait to see the work that you produce!

Weekly homework:

- Practice your times tables as much as you can in any way you want.
- Look on EdShed for the weekly spelling list and show me how you learn these.
 - Read your reading book and log your activity on BoomRead.

I like being creative:

Gather craft materials to create your own 3D mountain. Can you decorate and paint this? Can you label the parts of a mountain?

Research famous paintings of mountains and recreate these using a similar style of art and materials.

What animals live in mountainous areas? Can you draw and colour in one of these for our class display?

Invent your own electrical item that has not yet been invented! Explain how it would be used, with pictures and labels.

I like learning outside:

Visit a local hill or mountainous area. What wildlife can you see there? Does the type of plant found there change as you get to a higher altitude?

Use natural materials to create your own 3D mountain and take photos of your creation. Can you label the parts of the mountain?

Can you see any flowers begin to grow? Draw a picture of what you can see.

I like using computers:

Choose one of the world's highest mountains and create a PowerPoint presentation all about it. Don't forget to include lots of interesting images and information!

Write and publish a 'true or false?' quiz which includes amazing statements about mountains of the world.

Draw a picture of a mountain using an online art/ paint program.

Think about your usual day to day routine and record all the different ways you use electricity.
